

ACKNOWLEDGEMENTS

IGES Forest Conservation (FC) Project wishes to thank most warmly those who kindly assisted the 3rd International Workshop on Forest Conservation Strategies for the Asia and Pacific region.

This workshop could not have achieved its successful results without generous help from Tokyo University, Tokyo Lumber Terminal, Woody Land Tokyo, Forest Nishikawa, Mr. INOUE Junji, Higashi-Agano Forestry Cooperative, and the Forestry Center of Hanno city.

A large part of the necessary work for this workshop depended on the efforts of dedicated students, Ms. HAYAMA Atsuko, Ms. NAGAHISA Akane, Mr. NAMURA Takayuki, Mr. OIKAWA Yosei, and Mr. SASAOKA Masatoshi.

We would like to thank Mr. Randal Helten for his careful proofreading the entire text in its original form.

Finally, again we express our many thanks to all organizations and people who kindly supported this workshop.
